## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 21, 23-35, and 37-41 are allowed.
2. The following is an examiner's statement of reasons for allowance: This invention deals with a system comprising a storage unit wherein said storage unit has a predetermined volume adapted to contain a quantity of said third refrigeration fluid at said predetermined temperature corresponding to the thermal consumption of said superconducting cable for at least two hours in the absence of heat exchange with said second refrigerating fluid (claims 21 & 35). This invention deals with a method of cooling a superconducting cable wherein said cryogenic bath has a predetermined volume adapted to contain a quantity of said third refrigeration fluid at said predetermined temperature corresponding to the thermal consumption of said superconducting cable for at least two hours in the absence of heat exchange with said second refrigerating fluid (claim 40).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

3. Applicant's arguments filed March 29, 2004 have been fully considered and they are persuasive. Specifically, the applicant argument that there is nothing in the entirety of Graneau to teach or suggest to a person of ordinary skill in the art that Graneau's tank 25 has a volume "adapted to contain a quantity of said third refrigerating fluid corresponding to the thermal consumption of said superconducting cable for at least two hours in the absence of a heat exchange with said second refrigerating fluid" and therefore "there is simply no recognition of all of these conditions to make that calculation, therefore Graneau fails to expressly disclose or teach every element of the claimed invention, and the Examiner cannot rely on Graneau as an anticipating reference under 35 U.S.C. 102", is persuasive and therefore the claims have been allowed.

***Communication***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Mayo III whose telephone number is (571)-272-1978. The examiner can normally be reached on M-F 8:30am-6:00 pm (alternate Fridays off).
